Summary

Interested in Cloud Infrastructure, CI/CD pipeline automation, and containerized deployments. Skilled in managing scalable and secure cloud environments using tools like Docker, Kubernetes, Jenkins, Git & Github. Strong understanding of Infrastructure as Code (IaC), monitoring, and performance optimization. Passionate about implementing DevSecOps practices to enhance security in cloud - native environments.

Skills

- Linux Administrator (Shell Scripting, Bash)
- AWS (EC2, IAM, Cloudfront, Route 53, RDS, S3, Elastic Beanstalk)
- Network (VPC, Load Balancer, Autoscaling)
- Cloud Monitoring (Cloud Watch, Prometheus, Grafana)
- CI/CD Pipeline (Jenkins)
- Cloud Infrastructure (Terraform)
- Cloud Formation
- Container & Orchestration (Docker, k8s)
- Configuration Management (Ansible)
- Vulnerability Assessment (Nmap, Nessus, Openvas, Wireshark)
- Web Pentesting (Burp Suite)
- Git & Github

Technical Experience & Projects

Devops Takeaway Project

- Project Description : CI/CD pipeline to build Maven project and Deploy in tomcat server.
- Used Tools : Jenkins, Ansible, Tomcat

Internship Completion in Ethical Hacking

July 2025 – Sep 2025

GenZ Educatewing Pvt Ltd, Bangalore

- Duration : 2 Months
- Projects Title : Network Vulnerability Assessment & Wireless Network Security Assessment
- Project Description : To Identify the Network Vulnerabilities and Label with (CVE ID)

Internship Completion in Full Stack Development

July 2025

Strydo Technologies Pvt Ltd, Vellore

- Duration : 1 Month

- Project : BBC News Website Simulation
- Project Description : To Build a BBC News Website with HTML, CSS, JavaScript and React.

Education

Bachelor of Computer Science and Engineering **2022 - 2026**

Ganadipathy Tulsi's Jain Engineering College – Vellore (Anna University)

- CGPA – 8.1

Tamil Nadu State Board (HSC & SSLC) **2020 - 2022**

Victoria Matric HR Sec School – Kanchipuram

- HSC – 48%
- SSLC – 67%

Certifications

Google Cloud Badges : Google Skill Boost Badges

- Google Cloud Platform : Cloud Infrastructure, Cloud Monitoring, Load Balancing
- Devops : Kubernetes, Terraform
